

# Gas Line Leak Detection and Repair

**IN THE GREATER FRISCO, PLANO, ALLEN,  
MCKINNEY, CARROLLTON AREAS**

Needing a gas line repair in your Frisco area home is a serious matter. If you suspect even the slightest that you may have a natural gas, or propane gas leak in your home, please do not wait to call Smith and Son Plumbing! We will arrive quickly and perform a gas leak detection to make sure your home is safe and secure.

If you truly believe there might be a leak, leave all light and electronic switches as they are. Turning these on or off can cause a spark and then an explosion if there is gas in the air.

No matter the size of the needed gas line repair, replacement or new installation, we have years of experience and are fully licensed, insured and certified. You can be without worry about our experience with managing any type of gas service. We also offer annual inspections that will ensure all of ones gas appliances and lines are in proper working order.
